Public Meeting Didsbury Game Association

Everybody in such a farming community as Didsbury and district is interested in the work done by the Alberta Fish and Game Association and especially that carried on by the local branch.

A meeting has been called by the executive of the local branch to be held in the Opera House, Didsbury, Friday, June 7 at 8 o'clock sharp. A number of special speakers will be present for the occasion, among these being Chas. A. Hayden, Managing Editor of the Calgary Herald and president of the Calgary Fish and Game Association, and Messrs. Rodd and Richardson of the Federal Department of Marine and Fisheries.

School children are especially invited. It is expected to have music for the occasion while motion pictures will be shown on the screen.

This meeting comes at a time when special interest is being created by the prizes offered by the Provincial Department of Agriculture for the destruction of pests.

Miss Wolff who has been visiting in town left Saturday last for Castor.

TRAVELLING HEALTH CLINIC STARTS SEASON

The travelling clinic under the direction of the Alberta Department of Health, which has rendered splendid service in many outlying sections of the province during the past two years, has started on its itinerary for the 1929 season during the past week. Some 34 centres will be visited and the doctors, dentists and nurses in attendance will follow up the work which has been done in advance by the inspection staff of public health nurses through rural schools. The clinic will again be in charge of Dr. R. T. Washburn, medical superintendent of the University Hospital. Dr. Margaret Owens, the first woman doctor employed by the Department of Health, is a member of the clinic staff and will pay particular attention to the treatment of women and children. Included in the party also will be Dr. A. E. Haycock, Provincial Institutional Dentist; Dr. H. E. Gilchrist of the University of Alberta and four trained nurses.

BIRTHS

To Mr. and Mrs. W. H. Herbert, Didsbury, May 28, a daughter.

To Mr. and Mrs. Henry Erb, Didsbury, May 30, a son.

To Mr. and Mrs. L. Herner, Sundre, June 1, a son.

To Mr. and Mrs. C. T. Reimer, Didsbury, a son.

To Mr. and Mrs. Lamont, Didsbury, June 2, a daughter.

Didsbury's Anglican Church Scene Of Pretty Nuptials

St. Cyprian's Anglican Church, Didsbury, was the scene of a pretty wedding on Saturday evening, May 25, when Florence Emily, eldest daughter of Mr. and Mrs. E. K. Pratt, Didsbury, was united in marriage to Mr. Harry W. Wait, only son of Mr. E. O. Wait, Didsbury, the Rev. H. Clay of Olds, officiating.

The church was simply decorated for the occasion. Baskets of pink carnations and white snap dragons were supplemented by the vases of pink and white snapdragons for the altar. The invited guests were seated in pews marked with bows of white tulle centred with pink and white sweatpeas and lily of the valley.

To the strains of the bridal chorus from Lohengrin, played by Mrs. Gulliver, the bride entered the church on the arm of her father, who gave her in marriage. She was charming in a Lanvin period gown of ivory crepe back satin, exquisitely simple in its lines. The full circular skirt of tiers of silk lace was shorter in front showing the under-hem veiled in pale pink. From the shoulders of the fitted bodice fell a court train of ivory satin, lined with pale pink georgette, and with a bow knot of orange blossoms applied on the fan-shaped end. The long veil of embroidered tulle was caught to the head in cap effect with a coronet of pearls with drops of the traditional orange blossoms on either side. Ivory satin pumps and matching hose completed the bridal ensemble. A shower bouquet of Madame Butterfly roses repeated the delicate color of the veiled under-hem. A string of pearls was her only ornament.

Attending her as bridesmaid was Miss Irene Copping of Calgary, who was attractively attired in a period gown of Nile green taffeta, with picture hat to match and carrying a bouquet of pink carnations.

Miss Edith Pratt, youngest sister of the bride, was flower girl in a frock of powder blue taffeta and hat to match. She carried a basket of pink and white sweet peas. Mr. Walter Pratt, brother of the bride, acted as best man, while the ushers were Mr. Thomas Pratt and Mr. Ormond Phillipson. During the signing of the register, "O Promise Me," was sung by Mrs. Burrows.

The gift to the bridesmaid was an emerald set brooch, to the flower girl, a string of pearls, to the best man, a silver cigarette lighter, and to the ushers, silver pen knives.

Immediately following the wedding a reception was held at the home of the bride's parents. A buffet luncheon was served, the bride's table being tastefully decorated with pink tapers and sweetpeas and centred with a four tier wedding cake. Mrs. Chas. Pratt and Mrs. G. Pearson, sister-in-law and aunt of the bride respectively, presided over the table.

The bride's mother received with the bridal party in an independence blue gown. With it she wore a hat of matching shada, while her corsage bouquet was of pink carnations.

Among the invited guests from outside points were Mr. W. H. Pearson, Grand Prairie, Mrs. Geo. Wait, Saskatoon, Mr. and Mrs. H. Warner, Crossfield, Mr. and Mrs. Geo. Rogers, Acme, Mr. and Mrs. Wilbur Rogers, Acme, Mrs. Copping, Calgary, Mr. and Mrs. F. Himmelreich.

Later Mr. and Mrs. Wait left on a short honeymoon to Calgary and other points. For travelling the bride donned a smart ensemble of miramar green and sand. Her small mohair hat was of the same tone of green and she wore a brown fox fur, with shoes, hose, and gloves en suite.

On their return Mr. and Mrs.

MANY TO ATTEND INSTITUTES OF CO-OPERATION

Judging from the number of inquiries already received by the committees in charge of arrangements, a large attendance of farmers and others interested in crop marketing problems is promised for the Alberta Institutes of Co-operation to be held at Lethbridge, Olds and Vermilion during the week of June 24th. Arrangements for the programs at the three points have been practically completed and the calibre of the speakers secured leaves no doubt as to the success of the meetings. Arrangements at each of the three points are in charge of an enthusiastic local committee and those who plan to attend either the adult or junior sections of the Institutes should communicate at an early date with the registrar of the Institute they will attend.

OBITUARY

David S. Shantz was born in Waterloo County, Ontario, May 13, 1854, and died at Castor, Alta., on May 31, 1929. His people were farmers. In 1877, at the age of 23 Mr. Shantz married and settled in New Dundee, Ont. After farming and ministerial work in Ontario and Michigan for a number of years, he removed with his wife and family to Alberta in 1901. He settled on land southeast of Didsbury, and in 1901 was appointed postmaster in Didsbury, which position he held for over a decade. He also served on the town council for a number of years. Previous to going to Castor to make his home in 1919 deceased lived in Calgary. He was always an active member of the M. B. C. Church and frequently occupied the pulpit.

He leaves to mourn his departure his wife, four sons, three daughters 23 grandchildren and one grandchild. The funeral service was held from the Evangelical Church, Didsbury, Sunday, June 2 at which there was a large attendance to pay their respects to the deceased. Interment was made in the Didsbury cemetery.

DIED

On Saturday, June 1, Lloyd, 4 year old son of Mrs. J. Cummins. The funeral service was conducted from Knox United Church, Didsbury, Monday, June 3, Rev. A. E. Hayes officiating. Interment was made in the Didsbury cemetery.

Wait will reside on the groom's farm east of Didsbury.

Red Deer Takes Two Games From Locals

Baseball games: Didsbury at Innisfail, June 7; Carstairs at Didsbury, June 12; Crossfield at Didsbury, June 14.

Red Deer 11; Didsbury 7

Didsbury and Red Deer baseball teams met for the first time this season on the local diamond, Wednesday, May 29. The performance of the locals was the best this season.

Mix on the mound for Didsbury was in rare form only allowing a few scattered hits and striking out ten batters. The visitors scored most of their runs on errors by the local boys. Didsbury was very strong on the bat, H. George leading the list with a single, two-base and three-base hits. Baxter commenced the hurling for the visitors but was relieved by Blades in the sixth.

Red Deer 10; Didsbury 1

Red Deer's slugging ball players swamped the local boys 10 to 1 on Friday evening last at Red Deer. The game was played during a high wind and dust storm and was called off half way through the sixth inning. Red Deer batted all the way around the first inning, collecting four runs. In the third they went wild again, scoring four more, ending the sixth with another two. The locals scored their only run in the fifth inning. Devolin and Mix did the twirling for the locals.

Innisfail 8; Didsbury 6

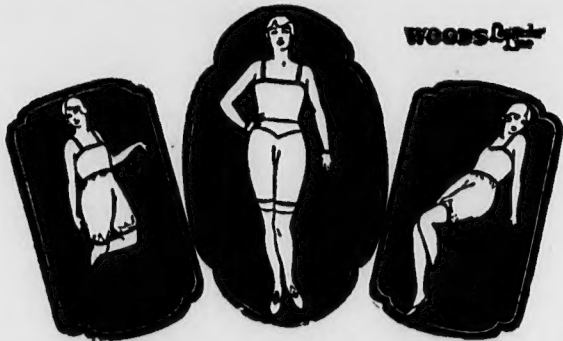

Didsbury baseballers lost their sixth game of the season when they played against Innisfail Monday evening on the local diamond.

The locals scored four runs the first inning but were held at bay until the eighth in which they crossed the home plate again twice. The visitors scored one run in the second inning, four in the third, two in the fifth and one in the eighth. The game was won on Didsbury's few costly errors.

The Didsbury Old Timers Association picnic will be held on Wednesday, June 26th, not on June 27th as announced in our issue of May 16th.

A New Process A New Yarn A New Fabric "WOODS" Lingerie

This ANNOUNCES a New Lavender Line Fabric which is stronger, more silk-like and more beautiful than Rayon. It is made from a new synthetic silk. This silk is 20% stronger than Rayon. The new knitting and shrinking process, makes not only an extremely durable fabric, but one that is positively guaranteed RUN-PROOF.

- STRIDE KNICKER—Ideal knicker for street and every day wear. Elastic top and legs, run in by hand through buttonhole \$2.50
- VEST—Made with narrow non-rollable shoulder straps, and under-arm shields..... \$1.50
- SLIP—Shadow proof slip. Consists of the unusually tight stitch used in the fabric..... \$2.50
- APPLIQUED PYJAMA—Futuristic Applique pattern. Smart colors..... \$5.50

Improved "Woods Blue Label" Lingerie

This line is made of the best quality Rayon and is now knitted with a very close packed stitch. The cloth is now shrink in processing and otherwise constructed like the Lavender Line fabric and is consequently also guaranteed RUN-PROOF. This line offers a durability, smartness and value which is unequalled in its field.

- Knickers, fully tailored and carefully finished..... \$1.50
- Vests, smartly made, with re-inforced shoulder straps and invisible lacing..... \$1.00

Radio--An Agency For Peace

The sittings now being held by the Royal Commission on Radio appointed by the Dominion Government to study the whole question of broadcasting, and make report to the Government as to best policy for Canada to adopt in the national interests of the whole Dominion, is having the effect of directing attention from the purely local and entertainment features of this latest of great modern discoveries and causing people to appreciate more fully the tremendous possibilities of aerial communication, both in a national and international sense.

While undoubtedly there is a feeling of regret in Canada that, because of natural causes, it is much easier for people in Western Canada to "listen in" on stations in the Central Western States than it is to "get" stations in Eastern Canada, and for Eastern Canadian listeners to receive the programmes broadcast from New York, Philadelphia, and other Eastern United States cities than it is for them to "tune in" on Western Canadian Stations—a condition for which it is hoped the present Radio Commission can find some solution, the fact remains that a closer community of interest between Canada and the United States, and consequently a still better understanding, is being developed by means of the radio. And community of interest and understanding is the greatest of all bulwarks to Peace.

But to many in this country it will come as a welcome surprise to learn of the great strides made by radio in Europe and the effect it is having in promoting greater understanding among the diverse nationalities and languages of that war-afflicted continent. It is almost inconceivable that within less than eleven years of the signing of the Armistice ending the Great War, the radio should be used in Germany and England to teach the people, not merely school children but adults, the French language; that international "hook-ups" of Germany, Poland, Austria, Hungary, France, and other countries are being regularly carried out, so that people in Paris and Warsaw can listen to German concerts in Berlin and Hamburg, and the German people can enjoy the opera in Paris, or a great symphony orchestra in Vienna or Budapest.

There are some good people in Canada who still retain the old fashioned idea that it is unpatriotic, and liable to undermine British institutions in this country, if children are taught in our schools to speak and read French, German, or any language but English. In entertaining such ideas Canadians are far behind the times; they are not nearly so far advanced as they are in England and other countries where the learning of foreign languages is compulsory. If every Canadian child, whether of British or French descent, was obliged to learn both English and French, Canada would in a generation become more powerful, influential and prosperous. It would open to our people the rich literature of both races; it would give us greater prestige among all nations; it would help to promote our export trade in all the markets of the world. In this Canada, by reason of its two great races, has an opportunity no other nation enjoys, yet we are not only neglecting it, but many people urge that it would be disloyal to our British connection to encourage it. Yet Britain herself is doing it.

It is predicted that within three years, five years at the most, Canadians will, through the development of national broadcasting at home, and the use of the beam system of wireless across the ocean, be able to sit in their homes and "listen in" on the finest programmes in the world broadcast from London, Paris, Berlin, Vienna, and other European centres of culture, art and music.

We can now speak with Europe by telephone from the heart of Canada's prairies, and the day is fast approaching, so those in a position to know authoritatively state, when by radio we will be in more or less constant communication with Europe, receiving the best they have to offer in public addresses, vocal and instrumental music, and the important news of the day. In turn, Canada will be brought equally close to them. And, in all probability, "seeing" Europe and European happenings through the instrumentality of the radio will more or less rapidly follow "hearing," just as, in reverse order, the "talking" picture has followed the silent movie.

And these things are all to the good, in the cause of world peace. As we know people and understand them our prejudices and suspicions are removed. We learn they are human just like ourselves; that they have high ideals and are inspired by lofty motives; that they love the things we love, and hate the unclean, the ugly, the vicious, just hate them. As we come to understand their problems, difficulties and aspirations, and they come to understand ours, mutual sympathy will develop, followed by a desire for co-operation, rather than antagonism.

It is only so, through mutual understanding, that permanent world peace can be maintained and the maximum of true progress be made.

FLU Germs Breed In the Throat.

First: Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Measuring Lightning Flash

No Part Of It Ever Lasts For Appreciable Time

A lightning flash takes about one-seventh of a second to complete itself and no part of it lasts more than approximately one-thirtieth of a second. This is the first time in history that the speed of a lightning flash has been measured. It has also been proved that lightning starts from the clouds and the ground at nearly the same instant, and approximately one-seventh of a second later the two ends unite in mid-air. These facts were determined by Dr. C. U. Boys, a British physicist, who has been attempting hundreds of photographs for the last twenty-six years, until a stroke of lightning in New York at last gave him this information.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

A Young Linguist

George Grando, 4, of Vader, Wash., is a linguist of ability. He speaks English or Croatian with equal facility. He was born in America, but his parents came from Dalmatia. He reads the letters of the alphabet in both English and Croatian, can count to 20 in both languages, and converses freely.

RHEUMATIC PAINS

Cannot Be Rubbed Out—The Trouble Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. Thin blood and rheumatism come together and if they are properly treated will go together. Anaemia means thin blood, and thin blood is something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the thin blood is built up, and when the poisons in the blood are overcome and driven out rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Novar, Ont., who says:—"For some years I was so badly troubled with rheumatism that I could hardly walk and suffered great pain. I had medical treatment but did not get much relief. Then I decided to try Dr. Williams' Pink Pills, and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

From July 14 to 17, 1911, 88.15 inches of rain fell at Baguio in the Philippine Islands. More than 45 inches fell on one day.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

The Teacher—You have failed in geography again.

Bobbie—No'm. You only ast me did I know the capital of Minnesota an' I said I didn't which, was true.

Worms cause fretfulness and rob the infant of sleep, the great nourisher, Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Forty automobiles can be driven abreast at low tide on the beach of Jacksonville, Fla. The sand is as firm as on a paved street.

Neuralgia succumbs to Minard's Liniment.

W. N. U. 1784

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

New Death Dealing Ray

Electrical Driver Recently Invented Develops Three Million Volts

H. H. Nelson-Smith, engineer on the staff of the Pacific Gas and Electric Company in San Francisco, said a "death ray" device had been invented by J. B. Martin, electrical engineer of San Francisco. The new device, he said, was capable of developing three million volts.

The Martin machine, Nelson-Smith stated, is housed "somewhere in San Francisco," but its exact whereabouts is being kept secret. The invention has been working in co-operation with the electric company.

"Anyone who got in the path of the ray would be instantly snuffed out, the chemical composition of his blood would be changed and the life cells disintegrated," he said.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight and it can be purchased almost anywhere.

Life is a grindstone, and whether it grinds a man down or polishes him up depends on the kind of stuff he's made of.

No surgical operation is necessary in removing corns if Holloway's Corn remover be used.

Einstein should make a good train caller or bellhop, as nobody can understand what he is talking about.

Minard's Liniment relieves pain.

More than 50,000,000 rabbit skins are made into felt hats in the United States every year.

At 452 degrees below zero some metals, such as silver and copper, lose their resistance to electricity, becoming superconductors.

Grain Commission Discovers Many Matters That Should Be Rectified To Good Advantage

The appointment of the Saskatchewan Commission of Inquiry was the result of accumulating complaints and of a combination of circumstances last fall. Wheat was down in price, the yield and quality of the grain in a large part of Saskatchewan had suffered on account of frost, and there was stricter grading with a view to protecting the reputation of Canadian wheat in the export market. Increasing complaints culminated in a demand for the reorganization of the Board of Grain Commissioners, and the same demand was heard in Alberta and Manitoba. With a view to getting the facts and clearing up the situation as far as possible, the Saskatchewan Government appointed the commission of inquiry.

There have been many commissions appointed by the provincial and federal governments to investigate the handling of the grain. They have all suggested improvements and an incidental result has been the education of the farmers on the grain question through reading the evidence taken and the reports made by the commissions. While there may be a great deal of misunderstanding among some of the farmers, there are others who have an intelligent grasp of their own business that is not surpassed by that of the farmers of any other country. Improvements in the methods and system of handling the grain are, also, constantly discussed by the committee on agriculture at Ottawa, and a great deal has been done in past years toward protecting the interests of the farmers.

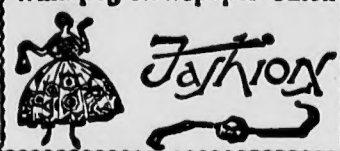

The present commission in its interim report, finds many minor matters that it thinks should be rectified, and it entirely agrees with the complaint of the farmers that the Grain Board is too far removed from them. The Board is given credit for good service in many ways, and it is recognized that it was hampered by the conditions under which it was working. Under the Grain Act, its headquarters were at Fort William, and it had an inadequate staff of inspectors to deal with complaints throughout the West, apart from the question whether a board of three commissioners could properly cover so wide a field. The commission recommends the enlarging of the board, the locating of the head office wherever the board thinks best, and the maintenance of offices at Fort William and Vancouver and in each of the Prairie Provinces, with enough inspectors to deal adequately with complaints. The personal factor in the supervision of the handling of the grain is stressed by the commission. It urges the selection of well-qualified men for the Grain Board, with the Chief Commissioner a man of outstanding ability. Increasing the remuneration of inspectors to prevent so many being drawn off by the pools and by private companies, thus lowering the efficiency of the staff, is recommended. And it is proposed that elevator agents throughout the West should be licensed, with power to the Grain Board to cancel licenses, in order to have better assurance of the competence and reliability of the men receiving the grain at the elevators. The report states that while most of the agents are satisfactory, there

are some who are not, and should not be engaged for the work.

The report says that the farmers are not satisfied that they feel that they would get a better price for their grain but for what happens to it after it leaves their hands. The report also says that the farmers are not getting the fullest return possible for their product.

The Committee on Agriculture at Ottawa, which has been discussing the grain question for weeks, particularly grading and mixing, will receive this report of the Saskatchewan Commission, and some of its recommendations at least will doubtless be included in their report to Parliament and result in legislation that will better protect the interests of the farmers and remove some of the cause of complaint.—Manitoba Free Press.

CAPTAIN E. GILLAM

who for many years has been piloting vessels of the B.C. Coast Steamship service, in and around the west coast, has been transferred to captain of the Princess Norah, newest ship in that particular service. He first took the bridge of the Norah when the Vice-regal party were guests of the Canadian Pacific Railway on a four-day cruise up the west coast of Vancouver Island.

Record Price For Calf

Boy Sells Calf At Calgary Spring Livestock Show For \$2,820

A record price was established at the recent Calgary spring live stock show when the first calf in the boys' and girls' calf feeding competition sold for three dollars a pound. This calf, an Aberdeen Angus, shown by Harold Richardson, of Bowden, Alberta, was an outstanding winner in its class. It was purchased by a Calgary butcher, and at a weight of 940 pounds, brought its young owner the handsome return of \$2,820.

Canada, with one tenth of the world's coal deposits, is in an enviable position, according to Sir Arthur Duckham, head of the British mission to Australia on Empire Trade.

Nitroglycerine, the powerful explosive, is also one of the most potent heart stimulants known.

Number Of Titled Canadians Is Found To Be Now Approaching Vanishing Point

Peace River Land For Homesteading

Former Forest Reserve Near B.C. Boundary To Be Thrown Open

About 6,000 homesteads or approximately 1,000,000 acres in the Grande Prairie District, Peace River, Alberta, and in the Peace River Block in British Columbia will shortly be thrown open for entry, according to information reaching the Colonization Department of the Canadian National Railways here. This area includes land formerly held as forestry reserves lying between the sixth meridian and the British Columbia boundary line and bounded on the north by the south line of township 81 and on the south by the Wapiti River. An additional area will also be surveyed and thrown open to homesteading. It is expected that entry may be made for some of these lands by about April 15th.

Making Scientific Hay

Another Use To Which Electricity Is Being Directed

Making hay without sunshine is one of the 200 uses of electricity developed by Borlase Matthews, pioneer in the application of electricity to the uses of agriculture. He has an "electro farm" of 600 acres in Sussex, England, and intends launching a scheme for rural electrification of Lincolnshire over an area of 1,280 square miles, with a capital of \$5,000,000 for which he has been granted a special order by the electricity commission.

Matthews is convinced that the farmers of Lincolnshire are keen to develop the use of electricity, examples of which he quotes as electric threshing, electric plowing, electric churning and use of ultra-violet rays for poultry and pigs.

Farmer A—Have you finished plowing the ten-acre field?

Farm hand—Yes.

Farmer A—Then you can attend to the harrowing details.

KING AND QUEEN AT BOGNOR

During a band concert given in front of Craigwell House, near Bognor, the King took occasion to walk down to the seawall to say a few words to the crowd collected there. The loud cheers that greeted him were interspersed with shouted good wishes for his further recovery. That both the King and Queen were delighted by the welcome accorded them may be surmised from the smiles seen in this picture which is one of the first to show the King walking after his long illness.

The number of titled Canadians is gradually diminishing. Slowly and inexorably time is rounding off the work which the Canadian parliament began in the spring of 1918, and eventually, save for descendants of the few hereditary peers resident in this country, a generation in the not remote future will see Canada completely divested of men upon whom the sovereign had conferred titular distinctions.

Kighthood has not flowered in the Dominion for more than 10 years. And only a few weeks ago the House of Commons gave emphasis again to their resolve that within the lifetime of the present parliament at least, there was little prospect of Canada's return to titles.

In 1918 Canada was represented in the peerage by eight persons; of baronets and knights there were in all 95. Since then 10 titles were conferred on soldiers and military administrators, bringing the total to 113. In the present year of grace Canada's representation among the peers of the realm has been reduced to five barons; there are eight baronets and 71 knights—a total of 84 and a diminution of 29 in the past decade.

These figures are recalled by the recent debate in the House of Commons when the effort was made to reopen the question of titles. C. H. Cahan, Conservative member for St. Lawrence-St. George, Montreal, sponsored a resolution which would have had the whole matter made the subject of enquiry by a parliamentary committee. Explaining his purpose, Mr. Cahan said it was desirable to remove the anomaly which arose from the fact that while in 1918 parliament banned the bestowal of titles on Canadians by His Britannic Majesty the same inhibition did not extend to foreign sovereigns. Out of this had developed the curious situation of alien monarchs exercising with respect to Canadians a prerogative denied to King George himself.

Mr. Cahan's resolution had the support of Premier W. L. Mackenzie King and Hon. R. B. Bennett, leader of the opposition. But in spite of this the rank and file of House of Commons voted overwhelmingly against it and for the time being the "status quo" was maintained.

The abolition of titles in Canada was one of the first offspring of the Union government, following the khaki election of 1917. It was on April 8, 1918, that W. F. Nickle, Union member for Kingston, first introduced his famous resolution praying that "His Majesty may hereafter be graciously pleased to refrain from conferring hereditary titles upon his subjects domiciled or living in Canada." Extreme democrats were dissatisfied with this; they thought the resolution was not sufficiently watertight. A champion arose in the person of the late R. L. Richardson, another Unionist from Springfield, Man., better known as "Fighting Bob" of the Winnipeg Tribune. Mr. Richardson moved to eliminate the word "hereditary," thus placing a ban on titles of any sort.

It was at this stage that the then Prime Minister, Sir Robert Borden, intervened. To the amazement of the House of Commons, he announced that on March 25—two weeks prior to the introduction of the Nickle resolution—the government had passed an order-in-council which had been submitted to the British Colonial Secretary. This requested "that no honor or titular distinction (saving those granted in recognition of military service during the present war or ordinarily bestowed by the sovereign 'proprio motu') shall be conferred upon a subject of His Majesty resident in Canada, except with the approval and advice of the Prime Minister of Canada."

Sir Robert made the matter one of confidence. The debate was warm, for many arose to defend this ancient institution. One of its severest critics, however, was Sir William Laurier himself. The aged Liberal chieftain said: "I am quite prepared, if we can do it without any disrespect to the Crown of England, to bring our titles to the marketplace and make a bonfire of them."

"You are top of your class, so tell me what that is?"
"It is a capital S."—Pages Gates, Yverdon.

THE WEEKLY NEWSPAPER

A few years ago observers "saw" the large metropolitan newspapers with their state-wide and, in some cases, national circulation driving the rural press out of business. Some went so far as to predict a time near at hand when only very large communities could financially support even one paper.

These groundless prophecies were inspired by consolidations and suspensions of weekly and small daily newspapers then taking place and still continuing in lesser numbers. But one could have predicted as easily the passing of the metropolitan press, for wholesale consolidations and suspensions were taking place among city papers during the same period.

The truth is the country found itself in the position of having an excess of newspapers and some had to drop out of the long and bitter struggle for bare existence. The saturation point had been passed long ago, and the retreat to the point of satiety is now nearing consummation.

What has been the result? Better, larger and more reliable newspapers are one result. And newspapers as a whole, from the smallest weekly to the largest daily, were never more prosperous.

Men everywhere are coming more and more to understand and appreciate the part the rural press is taking in the affairs of the nation. And its usefulness has increased with its prosperity and the public's confidence in it.

BOOST FOR GOOD ROADS

The automotive industry is dependent upon good roads. Without these the industry cannot go ahead. The efficiency of the cars that are being built today; the state of perfection that tires have reached; and all the smaller things that make for better operating conditions would all be useless without good roads.

Good roads then, are the key to the prosperity of the industry, for without continual improvement in road conditions, the building of new roads and the maintenance of them all, the progress of the industry would be hampered.

In every province you will find a number of men who are devoting their time to the improvement of road conditions. These men have a broad vision and realize that the future of Alberta and Western Canada is dependent upon good roads.

Where you find good roads you usually find good business.

The business people of any community can, by having good roads, increase their selling radius from five to twenty miles. Compare any town in Alberta with the same place ten years ago. The few horses and buggies that could be seen ten years ago have been replaced by a solid line of cars. The owners of these cars do not come to town just for the ride, they come to do business and spend their money.

Good roads have made it possible for the country dealer or merchant to compete to a greater extent with the city merchant, as well as the mail order houses. You will find that where roads are bad and transportation is poor that the mail order houses do more business in that district. Such districts are the fertile territory of the mail order houses.

LOCAL & GENERAL

Mrs. F. Finlay and two little daughters were visitors to Edmonton last week.

Mr. and Mrs. G. A. Russell and family left on Tuesday for Vernon, B. C.

Didsbury Normal students returning home from Calgary having completed their courses are Misses Beatrice Shields, Lottie Hunsperger, Iva Rupp, Elva Fisher and Mildred Levagood.

Messers Howard and Ellwood Evans, who have been attending Calgary Normal School returned to Didsbury last week-end. Ellwood has accepted a position in J. V. Berscht's Clothing store.

John Gilbert in Tolstoi's famous drama, "The Cossacks" with Renee Adoree, a stupendous spectacle that leaves you breathless. See him at the hands of the Turks—Didsbury Opera House, Saturday, June 8.

The Womens Guild of St. Cyprians Church, will hold their summer sale in the opera house, on Saturday, June 15th opening at 2 p. m. There will be plain and fancy sewing, home cooking, candy etc. Tea will be served from 3 to 6 p. m. 23-2c

The W. C. T. U. will meet at the home of Mrs. Brubacher, on Thursday, June 13th, at 3 p. m. Mrs. G. Liesemer taking the topic, Our Relation to Worlds Work, which will be very interesting. Members and friends are cordially invited to be present.

A new society bearing the name of the Melvin Go-Getters has been formed in the Melvin district west of Didsbury. This club is for the young and old, and its chief aim is to make the Melvin district a popular centre for baseball and

We need good roads to develop our town and district. They are a benefit to all of us and we should all take an interest in their development.

WHEN WORK IS PLAY

There is a lesson for grown-up men and women in that felicity of childhood to make play out of work. Many adults can recall when the "a-bringing home of the cows" was made the occasion for a buffalo stampede and the real wild west and lasso sort of cow punching, and the fun which made play of the harvest labor, and the snow house and snow man which made shoveling great sport, as well as the many play games that came to raking the leaves, running errands, beating rugs. Was there anything men call work which those same men as boys could not have made a rip-snorting good game of?

Making play of work is the real secret of happiness. Happiness is never attained through slaving today in the anticipation of being able, financially, to play tomorrow. The man who takes a pleasure in his work—makes play of it—is enjoying life in its full. He does not need to depend upon financial independence for his happiness. He is the man or woman whom the world has always mistaken for the inspired genius because "love of work," "ambitions" and "aspiration" are terms foreign to a world finding in work nothing but "toll," "slavery," "labor," "struggle" and "drudgery," and working for nothing but "repose," "relaxation," and a perpetual holiday.

Love of work is, possible either in digging ditches or sculpturing eternal marble, but good work is only possible from men and women who make play of their work. To the eye and ear it seems paradoxical, but the mind has long conceived that human beings who make play of their work play less at their work.

Every week the Editor is in receipt of a number of small news items for publication in our columns, at the bottom of which is no signature. We would ask those who are kind enough to send us such items to append their signature at the bottom of the sheet. Such signatures, are of course, not for publication, and go no further than the Pioneer desk, but we request this favor simply as a matter of good faith.

Now that Lindbergh is married the numerous females of the species who sent proposals of marriage to him after his epochal solo flight across the Atlantic will have to direct their aspirations through other channels.

Frigidaire

PROVIDES BETTER Refrigeration

IN stores, restaurants, hotels, factories as well as homes, Frigidaire Automatic Refrigeration points the way to bigger profits and better satisfied customers. It preserves foods better. And at much less than the cost of ice. Let us give you the facts. Can be operated from individual electric plants.

Eagle Hill. 22-2c

Mr. and Mrs. W. A. Teskey
were visitors to Olds on Sunday at
the home of Mr. and Mrs. Brans-
combe.

Mrs. J. Boorman was a visitor
to Olds over the week-end at the
home of her parents Mr. and Mrs.
W. Stock.

The second round of the Calgary
Herald Golf Tournament will be
played on the local course on Sun-
day. Lacombe, Red Deer, Innis-
fail and Didsbury are competing.

Miss Hutton, Calgary, of the
Home Bureau of Education, gave a
helpful talk on interior decorating
under the auspices of the local
W.I. in Knox Church, Tuesday
afternoon.

Largs, Ayrshire, Scotland, May
27.—The town council of Largs has
ruled that there shall be no more
playing of the bagpipes on its beach.
The councilmen in issuing their de-
cree said they held no animosity
toward the pipers but the notes of
their instruments added to the
noise of motor traffic produced "a
conglomeration of jarring sounds."
Silver and brass bands may play on
the beach, ruled the city fathers.

Of interest to a large number of
tourists is the announcement by J.
J. Webster, Secretary of the Alber-
ta Motor Association, that the Lake
Louise highway, and the Banff-
Windermere highway have been
opened during the past week for
the season's traffic.

Department Testing So-Called Chemical Weed Eradicator

It has come to the attention of the
Department of Agriculture that cer-
tain persons have been recommending
to farmers a chemical preparation
for the destruction of noxious weeds,
and in published statements testifying
to the value of this preparation
have represented themselves as being
connected at the time with the
Department.

This creates an impression which
should be corrected, and it may be
pointed out that the Department
accepts no responsibility for state-
ments of this kind from unauthorized
sources. Experiments have been
carried out by the Field Crops Branch
of the Department during the past
year to determine the efficiency of the
various chemical weed destroyers
which are now on the market, and
further intensive tests will be con-
ducted this year under the direct
supervision of the Field Crops Com-
missioner. At the conclusion of these
experiments an official statement of
the results showing the comparative
value of these chemicals will be
issued, and until that time no reports
as to the findings of the Department
in this connection can be considered
as authoritative.

ECONOMIC LIFE OF GERMANY IS REPORTED SOUND

Berlin.—Confidence in Germany's economic soundness is the dominant note in Agent-General Seymour Parker Gilbert's report for the fourth reparations annuity year made public Tuesday.

The report paints a complimentary picture of Germany's entire economic life. The agent-general testifies to Germany's punctilious payments of all sums due on the reparations accounts and describes Germany as placing the product of her science, skill and labor at the disposal of creditor nations in an effort to pay for the war.

With reference to payments for the current annuity year the report forecasts that "no question can fairly arise, in the light of practical experience thus far, as to the ability of the reich to provide the full amount of its standard contribution of the plan."

The report states that the payments and transfers during the year amounted to 1,739,000,000 gold marks (about \$440,000,000).

The report proceeds to show that the total annuity of the fourth year was almost one and three-quarter billion marks, of which France receives more than one billion (about \$250,000,000).

The list of creditors included France, Great Britain, Italy, Belgium, Jugo Slavia, United States, Rumania, Japan, Portugal, Greece and Poland.

Langsner Leaves Canada

Man Who Investigated Ambrose Small Case, Has Gone To West Indies

Toronto.—Dr. Adolph Maximilian Langsner, who investigated the Ambrose Small case here, some weeks ago, has gone to the West Indies, and later will go to Mexico. These sections are presumably more sympathetic to his theories and methods than Canada, whose authorities, according to his own statement, exhibited a disinclination to renew his immigration permit as a visitor in this country.

As on his previous departure from Toronto, he promises to return, make sensational disclosures regarding the Small case, and "solve the mystery in spite of all they can do."

Influence was brought to bear by his enemies and opponents in the Small case, he said, before his departure, with the object of preventing him continuing his investigation of the mystery.

Was Pioneer Railroad Builder

Pat Welch, Well Known In West, Dies In California

Spokane, Wash.—Pat Welch, 70, member of the firm of Stewart and Welch, railroad builders, died recently at Coronado, California, a telegram to relatives here said. Mr. Welch, who had gone to California for his health last summer, had been ill for nearly four years.

Associated with Major General John Stewart, of Vancouver, B.C., Welch had a part of the construction of many railroads in the north-west with General Stewart, held many contracts in the United States, Canada, Great Britain and Africa.

Famous Analyst Dead

Ottawa.—Dr. Anthony McGill, M.A., B.Sc., LL.D., F.R.C.S., formerly chief Dominion analyst, is dead at his home in Berkeley, Calif., according to word received in Ottawa by relatives. His death occurred on Saturday, December 29. He was 81 years old. Dr. McGill was one of Canada's most prominent chemists and was an outstanding figure in scientific circles.

New Air Marshal Appointed

London, Eng.—Sir John Maitland Salmon, air marshal, has been appointed chief marshal of the Royal Air Force in succession to Sir Hugh Trenchard, who resigned December 20. Sir John Frederick Higgins, air vice-marshal, will be promoted to Sir John Salmon's rank.

W. N. U. 1767

Two Opposite Camps

Difference Of Opinions Within the Ranks Of Salvation Army

London, Eng.—For the first time both parties within the Salvation Army have openly admitted that the high council which will meet shortly was composed of two opposite camps.

Officials at the international headquarters and at the headquarters of Evangeline Booth, head of the Army in the United States, freely made pronouncements on the probable line-up of voting when the question of removal of General Bramwell Booth as commander-in-chief, and reorganization of the Army will come up.

An official of the Evangeline Booth group stated that after a careful canvass the group was satisfied more than the necessary three-quarters majority of the council will vote for the removal of General Booth and subsequent reorganization.

At international headquarters those who are supporting General Booth refused to concede a possible victory to the other camp, saying that they were sure of at least seven votes, and that they believed the council would vote confidence in the general to continue his leadership.

They said, however, the method of choosing a successor, and other administrative reforms, might be effected, and that even certain of those who would support the general would favor this.

Vancouver Adds To Official Population

Suburbs Have Been Absorbed By Coast Metropolis

Vancouver.—The pandemonium which welcomed the New Year also marked the beginning of a new Vancouver. This city added some 80,000 to its official population at the last stroke of 12. The hitherto separate municipalities of Point Grey and Vancouver South merged with Vancouver proper to form one metropolis with a population of 220,883, according to figures drawn up in a survey completed in December, 1927.

A local directory, however, places the total population at 277,680. According to the lower estimate, Vancouver brought in a population of 142,150, South Vancouver 45,500, and Point Grey, 33,233. Thus this Pacific gateway, which less than half a century ago was but a settlement, has reached a position where it lays claim to being Canada's third city. The next Dominion census will officially place the honor as between Vancouver and Winnipeg.

Revising Regulations On Incoming Autos

Officials At Ottawa Welcoming Opinions On Existing Restrictions

Ottawa, Ont.—Business men of Western Canada are taking an active interest in the revision of the Customs regulations in regard to the entry from the United States of automobiles.

The Department of National Revenue has been engaged for some time in this re-drafting of these regulations with the purpose of removing objectionable restrictions on incoming automobiles, and such has been the interest of business men in the west that the work has been delayed temporarily until all representations have been received.

Many board of trades have written to the department, and the officials are welcoming every expression of opinion. Every effort will be made to so redraft the regulations that they will be acceptable.

New Hotel Is Assured

Saskatoon, Sask.—Definite assurance of construction of a new C.N.R. hotel, consistent in size and character with the needs of the city of Saskatoon, was contained in a telegram received by Mayor G. W. Norman, of Saskatoon, from Sir Henry Thornton, president of the Canadian National Railways.

British Members Nominated

London, Eng.—The British government has nominated Sir Josiah Stamp and Lord Revelstoke as the British members of the projected committee of experts on reparations. The names of the two deputy members will be announced later.

HEADS NATIVE SONS

Dr. James Cotton, president of the Native Sons of Canada, who express fear that Canada's new immigration agreement with Britain may bring too many settlers here, thereby increasing unemployment and driving Canadians to the United States.

Prisoners Help Fund For Distressed Miners

Heard Appeal Made By Prince On Christmas Day

London, Eng.—Evidence is fast accumulating of the added impetus given the lord mayor's fund for relief of families of distressed miners by the personal appeal of the Prince of Wales broadcast by radio on Christmas Day. The fund now amounts to nearly \$2,000,000 exclusive of the governmental contribution which is to double it.

The governor of a certain prison has sent along \$55 "from the prisoners who heard the Prince." Many letters received at the headquarters of the fund, the Mansion House, are addressed to the Prince personally.

Canada's Trade With U.S.

Best Customer Last Year Says Bulletin Issued At Washington

Washington, D.C.—Canada literally purchased a little of everything American manufacturers had to offer during the first ten months of 1928, and may have "bought the Brooklyn Bridge" if Uncle Sam offered such a structure for sale.

This makes the substance of "our world trade," says a bulletin issued by the foreign commerce department of the Chamber of Commerce of the United States. It stated that the Dominion was the best customer of the United States during the designated period.

To Preserve Niagara Falls

Treaty Is Signed Between Canada and United States

Ottawa, Ont.—The construction of remedial works in the Niagara River designed to distribute the water so as to ensure at all times unbroken crestlines on both Canadian and American Falls, is provided for in a treaty between Canada and United States which was signed at the office of the Prime Minister here.

In addition to providing for the construction of these works, provision is also made that each country may divert an additional 10,000 cubic feet of water per second for power purposes. These diversions will be permitted only "during the winter or non-tourist season, beginning on the first day of October and ending on the 31st day of March of the following year."

The treaty was signed by Right Hon. W. L. Mackenzie King, acting in the capacity of plenipotentiary for his Majesty the King, and by Hon. William Phillips, United States minister to Canada, as plenipotentiary for his government.

Early Seeding

Marquis Wheat Sown At Indian Head On January 2nd.

Indian Head, Sask.—Saskatchewan in past years has been noted for the creation of records, some of them strange and unusual, and on the second day of 1929, another was added, that will stand for some time.

This was the seeding of spring wheat, five acres of Marquis being planted on an experimental plot at the experimental station farm. At 1 o'clock, the superintendent ordered his men and teams out, and according to information given Wednesday afternoon, the five acres were seeded before dinner.

The land, summerfallow, was in excellent shape, and the wheat was buried to quite a depth.

New Commander For Rangers

Ottawa.—Included in the promotions announced by the department of national defense is that of Major E. Poole to the rank of lieutenant-colonel, and to command the Rocky Mountain Rangers, with headquarters at Kamloops, B.C., vice Lieut.-Col. T. Aldworth, who has been transferred to the reserve of officers.

To Tour Canada

Ottawa.—Sir William Clark, British high commissioner for Canada, next month hopes to visit Winnipeg and also Quebec, and then in the spring make an extended tour across the Dominion to Vancouver.

FAVORITE PHOTOGRAPH OF PRINCE

Here is reproduced a photograph of the Prince of Wales which was taken from the Illustrated London News. This picture is declared to be the best ever secured of the young man who recently returned from the big game haunts of Africa to the sick room of his father, King George.

EFFICIENCY OF NEW COMBINES AMPLY PROVEN

Ottawa.—Contributing to the progressive transition of Canada's farming industry, one of the more recent labor-saving devices, the reaper-thresher, or "combine" is playing an important part, according to E. S. Archibald, director of Dominion experimental farms.

Latest statistics, compiled by the federal department of agriculture, show that more than \$12,000,000 have already been invested in this new harvesting machine by farmers of the prairie provinces. It is also estimated that more than 3,500,000 acres of grain were cut and threshed during 1928 by the new method.

Saskatchewan, the premier grain producing province of the Dominion, leads in the number of combines in use with a total of 2,356. In Alberta 1,095 machines were in operation, while 206 were introduced in Manitoba.

Exhaustive experiments with the combine have been conducted by the federal department. Data has also been collected from owners scattered throughout the Dominion. From this information it has been established that very little trouble is being experienced in operation of the combines and that grain kept without loss in grade or milling quality.

The survey further revealed that harvesting with combines resulted in an approximate saving of eight or nine cents per bushel. A number of owners reported a saving of grain averaging 2.96 bushels per acre and that better grades were received than for binder harvested grain. A few received lower grades, while the majority of users noted no difference.

The canvass indicated that weeds caused delays in some sections. Several operators, however, stated that burning of combine stubble and straw had rendered the succeeding crop free from weeds and in several instances had increased the yield from two to six bushels an acre.

Senate Editor To Retire

Albert Horton Quits Office After Fifty Years' Service

Ottawa.—After half a century of service, Albert Horton, editor of Senate debates in Canada's parliament is to retire shortly. It was announced recently. He will be succeeded by David Halpin, at present of the Senate Hansard staff.

Mr. Horton has been a familiar figure on parliament hill since he was brought here in 1877 by Hon. George Brown, to report the proceedings in the Senate for the Toronto Globe.

The Flu Scourge

Epidemic Most Severe In Nova Scotia and Ontario

Ottawa, Ont.—Ontario and Nova Scotia are the two provinces of the Dominion where the ravages of the 'flu are most severe at present, declared Dr. J. A. Amyot, deputy minister of health, but the visitation of the scourge this winter is by no means as serious as those of 1918, 1919, and 1926.

The complications which accompanied the malady in those years have not been present to such an extent in the present epidemic.

Makes Endurance Flight

Los Angeles, Calif.—A new world's endurance flight mark for feminine flyers was attained by Miss Bobbie Trout, 19-year-old Los Angeles girl, when she landed her Golden Eagle plane here, setting a new continuous flight time of 12 hours and 11 minutes.

Tempest In Japan

Tokyo.—Seven hundred houses were reported destroyed, 56 persons killed and scores injured by storms on the Hondo coast, southwest of Niigata. Information reached the railway department here that at least 20 villages were inundated by the high seas.

CARD OF THANKS

We wish to thank all our friends and neighbors who have assisted or offered assistance and sympathy in our recent bereavement.

Mrs. D. S. Shantz and family.

Mrs. J. Cummins wishes to thank the friends and neighbors and especially the Ladies Aid of the United Church for their help and sympathy and the beautiful floral tributes during the bereavement of her little son, Lloyd.

The June meeting of the Didsbury local, U.F.A., No. 12, will be held in the Livestock Pool Office, Monday, June 10, at 2 o'clock. Mention might be made that the two delegates whose expenses are paid to Edmonton, attending the University Farm Week are Gabriel Leclair and Douglas Hoesgood.

er and Mrs. Geo. Liesemer left on Sunday for a visit with friends in Ontario.

Two auto accidents figured in last week's happenings. J. McGhee's car turned over pinning the occupants underneath, just south of Innisfail. The other occurred near Red Deer when some members of the local baseball team riding in Jones Bros' car met with an accident.

10 YEARS AGO

Friends of Mrs. J. McDougall of will be interested to learn that she set sail for Scotland on May 29 on board the Grampian, for a visit to her home.

Mr and Mrs. C. G. Carlson and family motored to Calgary on Monday where they will spend a few days and then proceed to Drumheller.

Born—On Tues., June 10, 1919, to Dr. and Mrs. J. L. Clarke, a son.

7:30 p.m. Knox Church, Didsbury.

It is easy to preach a good sermon but difficult to preach a sermon that does any good. There is a difference between teaching a thing and getting a thing learnt, but all who have the interest of themselves and others at heart, should bear the sermon this Sunday on "The Right to be Happy."

GLIMPSES FROM THE PAST

20 YEARS AGO

Born—On May 22, 1909, to Mr. and Mrs. Ezra Shantz, a daughter. On June 1, 1899, to Mr. and Mrs. L. W. Wilson, a daughter.

The northbound train Monday afternoon met with an accident when a colonist coach left the rails. The conductor was the only one seriously injured. The mishap caused a delay of six hours.

15 YEARS AGO

Fred Moyle is paying a business trip to B.C.

J. J. Kaatz, son of Rev. Kaatz of Spokane, is visiting with Mr. and Mrs. J. V. Berscht.

It is feared that Rev. H. Birkett, Church of England minister at Carstairs, is among the missing passengers on the ill-fated Empress of Ireland which was rammed and sunk in the St. Lawrence river May 29, 1914. So far his name does not appear on the list of those saved.

F. Moyle commenced work on his new block last week.

Mr. W. G. Liesemer and daughter.

IT takes more than mere size to make a BIG Six. It takes more than beauty, more than style, more than performance. True, a car needs all of these before it can become a BIG Six. True, Pontiac Big Six has all these.

But it has something more... something that stamps it once and forever as a real BIG Six.

It has the "feel" of a BIG Six. People accustomed to much driving will know immediately what that means.

And it's not a sensation you can counterfeit. You have but to sit behind the wheel, drive the car and get the "feel" of it... you'll know in an instant whether or not you are driving a Big Six.

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Fletcher's CASTORIA

Staining Shingle Roofs

Use a good shingle stain. Before beginning the work, see that the shingles are dry and clean. As a matter of economy it is better to dip shingles in bulk before laying them. Dip them in and out as quickly as possible and wipe them off by rubbing across a stick covered with burlap. Then allow them to drain off in a drip trough. They should be stained for only about two-thirds of their length. Stain the exposed ends only.

Paint is best for old, weather-beaten shingles, blackened by age and exposure. The priming coat should be prepared as directed for house painting and should be brushed out well with careful attention to the ends of the shingles. The second and finishing coat should be applied as it comes from the can.

Minard's Liniment—good for tired feet.

Smile—Her face was like five miles of detour.

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred. P. Averill, 136-12th Ave., Calgary, Alta., writes:—"I was bothered so much with my heart I could not sleep. I would waken up in the night screaming, and my heart would start pumping and pounding. A neighbor lady told me to try

so I started taking them and I can truthfully say I am a different woman. Altogether I only took two boxes."

Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1784

Laying and Preserving Linoleum

The ideal method of laying linoleum is to cement it over deadening felt paper, which should first be pasted to the floor with any standard make of linoleum paste. This overcomes bulging and stretching, or opening up of seams and cracks along the edges. It also prevents water from getting underneath the linoleum and in that way prolongs the life of the flooring.

Linoleum laid in this manner becomes a solid, permanent, elastic floor. It cannot bulge or stretch. The felt paper foundation absorbs all expansion or contraction that may take place in the wood floor and makes the linoleum more durable. It also allows the linoleum to be removed without difficulty or damage should the necessity arise.

The most approved manner of treating linoleum has been found to be waxing. The wax should be carefully rubbed on and the floor polished like hardwood. An occasional treatment of this kind will keep the linoleum in an immaculate condition.

A damp cloth removes all soil from the waxed linoleum and it will be found that scrubbing is entirely unnecessary.

In case there should be obstinate marks of soil on waxed linoleum, they can be removed with a pad of fine steel wool without scratching or damaging the linoleum itself.

Varnishing is best for printed linoleum, as it brightens and preserves the original pattern and makes the linoleum easier to clean. A coat of good varnish or white shellac will also preserve cork carpet.

GOOD IN EVERY WAY

Baby's Own Tablets Banish Babyhood and Childhood Ailments

A medicine that all mothers praise—one good in every way—one that will quickly banish the minor ills of babyhood and childhood is the medicine to keep in the medicine chest; to always have on hand in case of emergency. Such a medicine is Baby's Own Tablets—they are helpful at all times. They are a mild but thorough laxative which by regulating the bowels and stomach banish colds and simple fevers; correct constipation and indigestion; relieve colic and diarrhoea and make the cutting of teeth easy.

Thousands of mothers use no other medicine for their little ones. Among them is Mrs. J. H. Bromley, Westmeath, Ont., who writes:—"I have four children and whenever any of them are ill I always use Baby's Own Tablets and have found them good in every way. I would not be without the Tablets and would also like your little booklet 'Care of the Baby in Health and Sickness.'"

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Female Pied Piper

Woman in London Declares Rats Are Charming Creatures

A woman's love for rats has led to a certain quarter of London being so overrun with the pests that official action is to be taken. This female Pied Piper declares that rats are charming creatures and she places food in her garden for them every morning and evening. Neighbors have protested so loudly that efforts are to be made to capture the rats by smoking them out. There is nothing under the existing law to prevent persons feeding any kind of animals or vermin on their own ground.

Tangled Titles

Fletcher: "How did the jury come out in that Army Post case?" Barker: "They disagreed on the question of titles."

Fletcher: "What do you mean?" Barker: "They said they couldn't hold a Colonel in a Major crime arising from a General riot occasioned by a Private quarrel!"

London has more than 20,000 babies—English policemen.

Minard's Liniment for cuts and bruises.

Repainting Wooden Buildings

It is always good policy to re-paint a building before the previous coat has fallen into a bad state. If the work is done while the old coat is in good condition and the same value of paint is used ("value" referring not to color but to the paint's degree of lightness or darkness), one coat is usually sufficient when a good house paint is employed.

If, however, the old coat has been permitted to fall into a state of disrepair, it will be necessary, in order to put the surface into good condition, to use two and sometimes even three coats of paint.

If, owing to the use of a cheap ochre primer, or because the previous painting was applied on damp wood, or because of any other malpractice, the old coat has become hopelessly blistered and is peeling, the only safe course is to remove it entirely. If this is not done, the new coat (no matter how good your materials may be, and no matter how excellently you may have done the work), will be lifted off by the continued peeling and cracking of the old under-coat.

The best way to remove paint from large surfaces is to burn it off with a blow torch. This method consists in softening the paint with intense heat, generated by the torch, and scraping it off while still hot with a metal scraper. It is advisable to employ an experienced man for this work.

After the old coat has been entirely removed and the surface of the wood sand-papered and dusted off in the usual way, the building should be painted in the same manner as directed for new wooden buildings.

Usually an old coat which is in fair condition will merely require treatment with a coarse wire brush and scraper in order to remove the few loose particles adhering to the surface. It should then be dusted off and given two coats of paint.

The first coat is prepared in the following manner. If the surface seems unusually porous, a half-gallon of pure raw linseed oil and a pint of turpentine should be added to each gallon of paint. If the surface is hard and smooth, omit the oil but add a pint of turpentine to a gallon of paint.

The second coat of paint should be applied as it comes from the can.

Both these coats should be applied with the same care as is given to a new job and the general directions for painting new wooden buildings should be re-read and followed.

Requisite On the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Eclectic Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Northern Air Ports

Settlements in Northern Manitoba To Have Air Mail Service

Manitoba's northern settlements of Oxford, Godland, and Island Lakes will be added to the growing chain of northern air mail points of call, Hon. P. J. Veniot, postmaster-general, announced in the House of Commons.

Mr. Veniot stated that arrangements had been completed for the conveyance of mail to and from these northern points once a week by aeroplanes of the government forestry patrol at Norway House, at the north end of Lake Winnipeg.

Irish Magistrate: "The defendant swears he was perfectly sober."

Policeman: "He was absolutely intoxicated. If he had been perfectly sober he would have known he was drunk and not made a disturbance."

Australia supplies one-fifth of the world's supply of wool.

Floor Coverings

Next to the walls and ceiling, the floor presents the largest area in the room, and consequently its covering should be well thought out and carefully selected.

The floor, as well as the ceiling, is a plane which holds the four walls of the room together. While the walls form the background for furnishings, the floor is the foundation. A good foundation is always essential to any well-designed decorative plan.

Linoleum floors are attractive, resilient, shock-absorbing, durable, warm in winter and cool in summer. Waxing linoleum gives it a softer, smoother texture and preserves it indefinitely.

For the average room, a rug with a plain ground and a neat border, or neat all-over pattern of floor covering, is more desirable than one with a decided pattern.

Large and bold patterns have a decided tendency to make the room look smaller. The patterns are apt to jump and as the ideal floor covering furnishes the foundation for furnishings it must be made to keep its place on the floor. When there is a great deal of furniture, a boldly figured floor covering gives a confused appearance to the room and destroys its restful, harmonious appearance.

Boldly patterned rugs usually come in strong colorings, and this also makes them exceedingly difficult to fit into a soft, harmonious color scheme.

Figured floor coverings, however, have their place. In rooms which are sparsely furnished or where the furniture is of a light and simple type, they add to the "furnished" appearance of the room. That is, they take away bareness. In large rooms which are sparsely furnished, figured rugs are particularly advantageous.

In dining rooms, it is usually preferable to have a figured floor covering, as it does not show soil or stain so quickly as plain floor coverings. In bedrooms where the furniture is of a light type, a figured floor covering adds to the comfortable appearance of the room. In sleeping porches, enclosed porches or breakfast rooms, where the furniture is not usually plentiful, either tile effects or a bold figured floor covering adds greatly to the finished appearance of the room.

It is a wise plan when a highly figured floor covering is used to use hangings or upholstery material in a plain color or in a neat and unobtrusive all-over pattern. On the other hand, if the hangings or upholstery is figured, plain floor coverings are best. Too many figured patterns in a room create the feeling of motion and the effect produced lacks restfulness. Too many plain surfaces, on the other hand, tend to make a room look bare and uninteresting. Some figured material should be used in every room, but it should be balanced with a proportionate quantity of plain material or surfaces without design.

In selecting a figured pattern, the colorings must be considered first. For general use, strong or vivid colors should never be selected. Small all-over patterns are, in most cases, preferable to large sprawling ones. The tone of the floor covering should

Cuticura Heals Face Disfigured With Itchy Pimples

"I had pimples all over my face. They were hard, sore and red and some of them were large and others small. Some of them festered and scaled over, and itched and burned causing me to scratch. Scratching caused eruptions and the irritation prevented me from sleeping. They disfigured my face for many weeks. I tried different remedies without any results. I began using Cuticura Soap and Ointment and it was only a few weeks before my face was completely healed, after using two cakes of Cuticura Soap and one box of Cuticura Ointment." (Signed) Miss Harriet Hamilton, Box 772, Yarmouth, N. S.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft, smooth hands and a healthy scalp with good hair.

Soap 25c. Ointment 35c and 50c. Telcum 25c. Sold everywhere. Sample each free. Address Canadian Depot: J. Z. Watt Company Limited, Montreal. Cuticura Shaving Stick 25c.

always be deeper than that of the walls or furniture, as the ground we walk on is always darker than the sky or the landscape. Light-colored floor coverings are exceedingly difficult to fit into a harmonious scheme.

Many Varieties Of Bananas

Although most of us know only two varieties of bananas by sight, there are numerous others, the Philippine Islands claiming fifty-seven, Malay, thirteen, Spain, ten, and Burma, eight.

Hot or Cold!

It Matters Not

Alabastine mixes readily with hot or cold water and remains fluid no matter how long it stands. Will not rub off. Use a soft bristle brush.

CHURCH'S HOT & COLD WATER Alabastine

A DOZEN different things may cause a headache, but there's just one thing you need ever do to get immediate relief. Aspirin is an absolute antidote for such pain. Keep it at the office. Have it ready in the home. Those subject to frequent or sudden headaches should carry Aspirin in the handy pocket tin. Until you have used it for headaches, colds, neuralgia, etc., you've no idea how much Aspirin can help. It means quick, complete relief to millions of men and women who use it every year. And it does not depress the heart.

Joining England To Europe

German Dream Of Draining North Sea For Settlement Again Proposed

To restore to Europe the geography of a half-million years ago, when Stone Age cave-men wandered at will across broad meadows where the English Channel now rolls; to make England once more a part of Europe in fact as well as in name; to add more than 50,000 square miles of fertile farm land to Germany, Holland, England, and Denmark; to lengthen the Rhine, the Elbe, and other rivers by scores of miles, and to leave many busy European ports, including the great port of Hamburg, a hundred miles or more inland, these are a few of the changes which would be brought about by the most ambitious plan of continental remodeling ever suggested by practical engineers; a scheme recently proposed anonymously in a leading Berlin newspaper, and which has attracted much attention among engineers.

The plan is to dam and drain the larger part of the North Sea between England, Germany, and Denmark, in much the same way that smaller areas have been dyked and drained in Holland.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1784

The southern two-thirds of the North Sea is seldom over 100 feet deep. Running eastward from the River Humber on the east coast of England to the northern tip of Denmark is a subsequent cliff, once the coast line of Europe when the sea was lower than now. The plan is to build a dyke along this ancient coast line, to place another dyke across the English Channel, and to pump out the sea water from the area thus enclosed.

Raised double dykes, like levees, would carry the Elbe and other rivers across this lowland to the sea.

Air Service For Miners

Planes Will Carry Them To Northern British Columbia

A dream of four years is coming true for Frank Woodside, manager of B.C. Chamber of Mines, with the announcement by Major Don R. MacLaren of Western Canada Airways, Ltd., that a regular year-round aero plane service is to be operated into the northern country from Fort George.

The new service is to start at once with the latest model of Fokker seven-passenger 'plane. Andy Cruickshanks, famous Yukon air pilot and war veteran, has been secured to operate the 'plane which will work on pontoons in summer and skis in winter, with its southern base at Summit Lake, 16 miles from Ft. George, and a sub-base with stores and gasoline at Finlay Forks.

The 'plane will carry prospectors and miners to any part of the north country and its radius will take it to the far parts of the Arctic circle. A freight service to mines or prospectors' camps will also be given. A unique detail of the service will be the supply of folding Peterborough canoes to be carried on the 'plane for the use of prospectors who wish to go into country where canoes are not available.

The 'plane will also be used this summer for survey and photo-mapping of the country north of Sifton Pass and down the Laird River, Major MacLaren announces.

"We have been hoping and working for an aeroplane service north from St. George for nearly four years and it is certainly going to be a big thing for the mining industry there," Mr. Woodside said.

B. F. Lundy, well-known mining operator, who, recently bought a large plane and has been trying it out at Vancouver, proposes to start a service from there to Dease Lake country, Mr. Woodside states. This service will start in the near future, and will cut the time of engineers and prospectors by several days.

Everything In a Name

People Of Importance Usually Get What They Want

Recognition of senior officers when dressed in plain clothes is a matter which frequently gives trouble to the rank and file in the services. The same difficulty arises in the Metropolitan police, where a good story is told of Lord Byng visiting a suburban station shortly after his appointment. The door was guarded by a burly officer. "Can I come in?" asked the chief commissioner. "I don't think so," replied the officer. "The inspector is out." "Well, can you send for him?" "Yes, if it's important. What name shall I give?" "Byng." The alacrity that followed dispelled any doubt about the query "What's in a name."

Homestead Entries

Homestead filings for the two first months of the year numbered 1,416, as compared with 1,036 for the same two months of 1928. Alberta's entries amounted to 702 as against 502 in January and February of 1928; Saskatchewan's were 595 against 430; Manitoba's 78 against 74, and British Columbia's 41 against 30.

High Price For Canadian Lambs

A flock of 820 winter fed lambs shipped to an eastern market recently by Albert Green, farmer at Taber, Alberta, were sold for a total of \$12,000, or 17 cents per pound. Other shipments of Western Canadian lambs are to be made to markets in the East where, it is reported, they are in demand.

Judge—"The speed limit signs read fifteen miles an hour."
College Student—"But how could I read it when I was going forty?"

Solitude Reduces Sentence

Many Criminals In France Prefer Isolation For This Reason

In France's modern prison at Fresnes-Rungis, 1250 white-masked prisoners live in absolute silence. They neither see each other's faces or hear their voices. From the moment a metal number is hung around his neck, the prisoner is required to wear a white hood whenever he leaves his cell and he may not speak to his fellows. He sees the face of his guard from time to time, but no other, unless he is sent to the hospital or to the warden for discipline. Alone in his cell, he works eight hours a day, but good will and skill enable him to reduce the time to six hours and the money he earns enables him to buy small comforts. The government receives thirty-two cents a day from contractors for each prisoner's work and gives from three-tenths to half the money to the prisoner. The prisoner never sees the money till he leaves, but half of it is placed to his immediate credit for his little expenses. Yet in spite of all that many criminals ask to be sent here because the solitude entitles them to a reduction of one-fourth of their sentence.

Saskatchewan Famous For Clays

Saskatchewan has a greater variety of clays, in larger quantities and of the higher grades, than any other Canadian province, and will, without doubt, become the centre of a very important ceramic industry. The clays of Saskatchewan have been the subject of special investigations by the Department of Mines, Ottawa.

Scientist Makes New Discovery

Says Milk Treated By Wireless Waves Keeps Sweet For Weeks

An Austrian scientist claims to have discovered a method by which milk treated by wireless waves of short length can be kept sweet for three or four weeks. The new "wireless milk" is produced by passing an intense beam of short waves through the liquid. This is said to kill all germs which cause milk to turn. The milk itself is not heated by this treatment, and does not acquire a "cooked" taste.

Little Help For This Week

"Consider the lilies of the field,"—Matthew vi. 28.

Consider then the lilies,
O heart of mine, today;
They neither toil nor spin to win
Their beautiful array;
I would that thou could'st lead a life
So fearless, sweet as they.

—Margaret E. Sangster.

There is a wise meaning and a gracious design in every tint of the lily's adornment and every curve of its grace. Its symmetry is a type and proof of the divine justice. Its life is co-ordinated, and keeps time with the sublime motions of the heavens; and its structure and uses are full of the profound teachings of the unsearchable God. And if God thus care for an individual flower which today is, and tomorrow is cast into the oven, how much more will He care for an individual human being whom He has made in His own image, and upon whose life He has made such momentous issues to depend.—Hugh MacMillan.

There are more than 1,024,000 persons by the name of Johnson in the United States.

The average horn will blow 150,000 times before wearing out.

Auction Sale Of School Lands

Nearly \$400,000 was realized by the auctioning of school lands, all within a radius of forty miles of Regina, the other day. The number of quarter sections sold were 196 out of 381 listed for sale, and the average price realized was \$12.80 an acre, the total amounting to \$398,434.00.

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Horace—What is a bachelor, Daddy?

His Father—A bachelor, my boy, is a man who looks before he leaps — and then doesn't leap!

NOTICE TO CREDITORS AND CLAIMANTS

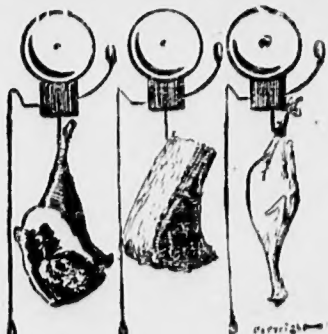

In the Estate of Conrad Currie Swalm, late of Didsbury, Alberta, Retired Farmer, deceased.

Notice is hereby given that all persons having claims on the Estate of the said deceased Conrad Currie Swalm, who died on the 28th day of May, A.D., 1928, are required to file with the undersigned by the 10th day of July, 1929, a full statement duly verified, of their claims and any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to their knowledge.

Dated this 22nd day of May, A.D. 1929.

W. A. AUSTIN,
Solicitor for the Executors of the Will of Conrad Currie Swalm, deceased.

Burnside Notes

Born—On Sunday, June 2nd, to Mr. and Mrs. Enoch Hughes, a daughter.

The Lone Pine W. I. will meet at the home of Mrs. A. E. Thompson on Thursday, June 13th. Mrs. E. R. Dawson will take the topic Immigration.

Don't forget the Hall Board dance on June 14th.

Miss Annie McCulloch is spending this week in Edmonton as delegate from the Lone Pine Junior U. F. A. to the Farm Young Peoples week at the University of Alberta.

Burnside U. F. A. will meet Monday evening, June 10th. A full attendance is requested as arrangements are to be made for the annual picnic.

The Rosebud Horseshoe League held its first game on Thursday evening last when Lone Pine was defeated by Burnside. Messrs. Jas. McCulloch, Sam McAllister, Gus Bittner and Bert Pross pitched for Lone Pine while the Burnside team consisted of Messrs. George, Will and Percy Saunders and Noah Eckel. The Rosebud league consists of four teams: Burnside, Lone Pine, Didsbury and Oids.

We are very sorry to learn that little Elva Liesemer, daughter of Mr. and Mrs. Con Liesemer, had the misfortune to break her arm last week when she fell off a horse.

We extend our sympathy to Mrs. Jack Cummins, a former resident of this district, on the death of her little son, Lloyd.

Our readers will learn with interest some particulars of an obituary, in the Greensburg (Kansas) News, of Mrs. Chas. H. Meyers, who died at Mullinville, Kansas, April 24th, 1929. Born in England she came to the United States with her parents in 1859. For her second husband she married Chas.
